# Need of Fire and Safety Education

The recent of construction safety act by parliament of India has made appointment of safety officers compulsory at various industrial ,and commercial sites whereas in abroad, safety in an integral part. It is fact as index of industrial growth, as result they require thousands of people there as safety officers and the assessment of the industrial and government demand put there requirement at over more than 25,000 safety personal every year in india . All of a sudden safety has become very important is because of the latest government rules to implemented for making safety and aware and flood gate of opportunity opening up in india. Fire and safety engineering course as a career fast catching up with the students and safety officer is highly respected in his office they work with management work and with dignity person .

Midseason  
Weekend Sale

Most Guaranteed Job Sector

# Opportunities in Fire and Safety Field

All over India and abroad where job opens are tremendous, to cater to the fast-growing demand from various quarters. There are only limited training center deliver professionally competent personnel. For today's college going generation, Fire & Safety Engineering Presents opportunity there is very keen demand from industries both in India & Gulf, where job opens are tremendous Security absolute, Chance to work abroad, Asking good salary in the sectors. **Fire and Safety Engineering has taken the enterprising reach over the youth of the country offering them a career opportunity which can change life for the beer within a year of enrolment .**

## Scope in Abroad

The demand for firemen & Fire and safety officer is in high demand in abroad specially in Gulf & developed countries like Australia, New Zealand, USA, Canada, etc. In foreign countries, the safety rules are quiet strict & no comprise is made related to the security of human lives. Especially in Gulf where the area is more fire prone due to common oil extra cons, safety rules are strict enough leading to ample opportunity for fire & safety personnel. Strang salary to a fresher fire and safety officers starts Tensive from Rs. 35,000/- to 70,000/- and goes to Rs. 75,000/- to 95,000/- as per his experience and performance.
